The southern rice growers have fared better at the hands of the Democratic tariff makers. The Wilson tariff imposes a duty of almost sixty cents a bushel on rice.

Last Monday, when the famous evangelist, Billy Sunday, showed in Lexington, a Main street confectioner of the Fayette capital did a rushing business dispensing "Billy Sundaes." Where the Rev. Billy is, there is the coin also.—Carlisle Mercury.

HAVE THEY DONE IT?

You remember, just before electing the present incumbent of the White House, that the Democratic "spellbinders" announced that he and his party would reduce the "high cost of living." Have they done it? Instead they have reduced the earning capacity of the working people of the country by halting business, a characteristic feature of its own. Instead of lowering the cost of many of the necessities of life, they enforced upon them a condition that makes it impossible for them to buy at any price.—Clintwood (Va.) Moon.

THE REAL PROBLEM.

The New York Mail reports Mayor Mitchel as having recently said:

It is necessary that we should develop a good system of industrial education for the City of New York. It will be worth while, I hope in the next four years to see such a development that our boys and girls will be equipped to earn a living with their hands as well as their heads.

The Mail is greatly impressed with the need of more and better trained workers in the industrial field. We think there is at the present time a need for more pressing than this. It is that more work and wages be provided for the workers, trained and competent workers, who have lost their jobs because the work they had previously been paid to do is being done by workers in foreign countries. When Americans are fully employed in doing the work for Americans, when the demand for labor exceeds the supply, and when there are three jobs for every two workers, there is much need of more trained workers. But not now, when Free-Trade has cost so many workers their jobs and when the real problem, the pressing problem, is how to find work for those who are willing to work but can find no work to do. To the solution of this problem the Mayor and the Mail might better direct their attention.

"I doubt if there is a particle of danger of Iowa sending back a single Democrat," says J. B. Hungerford, Editor of the Carroll Herald, Carroll, Iowa, about the Congressional elections this fall.

Mr. Hungerford is editor and publisher of the oldest paper in his county and is in close touch with political conditions in the Hawkeye State.

He says that the results of the Democratic tariff which are already beginning to show the Middle West are giving the farmers great concern especially the importation of corn and meat from Argentina to compete with products of the American farmer. These things are threatening the farming industry says Mr. Hungerford but they have not lessened the cost of living.

He says the Democratic tariff is helping the trusts that have acquired the control abroad of foreign products that are being shipped into the United States to compete with the American farmer.

THE DAILY NOVELETTE.

The Medicine Man.

A doctor's life is a busy one; The train—he sure must catch it, And what he cannot cure with drugs He chops out with a hatchet.

Again the telephone bell jangled noisily. "Hello! Hello!" answered Dr. Pinchfinger. "What? I tell you I'm a very busy—I can't come over yet. I have something very urgent on hand. I'm very sorry your husband is dying, but we must all come to that sooner or later. Yes, I'll come as soon as I can. Good-bye."

Seven minutes later it rang again. "Hello! What, you again?" cried Dr. Pinchfinger.

" Didn't I tell you that I have a most pressing matter on hand? Certainly I'll come as soon as possible. What? My trained nurse? No, she's just as busy as I am. In fact she's helping me out. Neither of us can come for a little while. Good-bye."

And the doctor slammed down the receiver and turned to his trained nurse. No one else was in the consulting room, although outside in the waiting room twenty-seven sufferers were reading the doctor's diplomas on the walls and otherwise trying to forget their troubles.

"Now, Miss Stepper," said Dr. Pinchfinger in his best professional manner, "suppose we just go over that last maxixe step once more, and then we both had better run over to that woman's house. If her husband is really dying I suppose we really ought to go."

So they perfected the maxixe step to the music of an Edison stethoscope and then slipped out the back way, leaving the suffering twenty-seven to continue reading the diplomas hanging in the waiting room.—Louisville Times

AFTER SUFFERING TWO LONG YEARS

Mrs. Aselin Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Minneapolis, Minn.—"After my little one was born I was sick with pains in my sides which the doctors said were caused by inflammation. I suffered a great deal every month and grew very thin. I was under the doctor's care for two long years without any benefit. Finally after repeated suggestions to try it we got Lydia E. Pinkham's Vegetable Compound. After taking the third bottle of the Compound I was able to do my housework and today I am strong and healthy again. I will answer letters if anyone wishes to know about my case."—Mrs. JOSEPH ASELIN, 623 Monroe St., N.E., Minneapolis, Minn.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for woman's ills. If you need such a medicine why don't you try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., confidential Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, not held in strict confidence.

Why Should I Smoke TUXEDO?

TUXEDO is the logical smoke for millions because it is impossible to buy a better tobacco.

Tuxedo is the logical smoke for the economical man because there are 40 pipefuls in a ten-cent tin—making the average cost per pipeful only one-fourth of a cent!

To buy cheaper tobacco means to get less pleasure out of smoking, because it is impossible to make a tobacco as good as Tuxedo at less than the Tuxedo price!

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo is made of only the finest, choicest selected leaves of perfectly aged Burley tobacco. It is made by the original Tuxedo process which takes all the unpleasantness out of tobacco and leaves all the pleasantness in!

Tuxedo has a deliciously mild, fragrant aroma that is pleasant to all. It is the only tobacco you can smoke in a room full of lace curtains without leaving even a trace of an odor.

A trial will convince you that Tuxedo is superior to every other tobacco you have ever smoked. Buy a tin—today.

FROM MANY LANDS.

Southern Baptist missionaries in Africa have had gratifying results in their work this year. They report 199 baptisms in their seveteen churches and a total membership of 969. These native Christians, out of their poverty, contributed \$1,577 to the support of their own work.

The low price of coffee and rubber has produced a condition of financial depression in Brazil but no backward movement has been reported from those on the field. One missionary says that one day laborer in his field brought his tithe, amounting to \$52 at the close of the church year.

Recently the board of missions of the M. E. Church, South, received a contribution of \$5.00 for the African mission, from a young girl whose father is a local preacher, and who has had the misfortune to lose his entire right arm, whose mother takes boarders and does anything else she can for a living, and who, herself, has lost one foot and ankle, but is far enough along to teach a country school. A case of real self-denial.

OUR CITIZEN'S DEMAND

Fully Compiled With—A Maysville Resident Furnished It.

There are few items which appear in this paper more important to Maysville people than the statement published below. In the first place, it is from a citizen of Maysville and can be thoroughly relied upon. In the second place it indisputably proves that Doan's Kidney Pills do their work thoroughly and not temporarily. Read this carefully:

Frederick Dresel, 1238 E. Second St., Maysville, Ky., says: "I was troubled with inflammation of the bladder and an annoyance from my kidneys. The passages of the kidney secretions were irregular and I had a severe pain across the small of my back which interfered with my duties. When a friend advised me to try Doan's Kidney Pills, I got a box at Wood & Son's Drug Store. Since using them I have had no trouble. All I said about Doan's Kidney Pills before still holds good."

Mr. Dresel is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Dresel had—the remedy backed by honest testimony, 500 all stores. AND WE SAID

It's true that this is a Young Man's store but—

We've more than a score of styles for men who have passed 30.

They are designed for busy men, men of affairs who know what's what in clothes. For men who have paid exclusive tailors some outlandish price because they thought that ready clothes makers never considered their needs.

They're conservative without being dead, they were planned for older men by an expert in

THE HOUSE OF KUPPENHEIMER
and tailored from the best, the purest woolen ever spun.

They're new, they're exclusive and they'll fit even the hardest to fit—that's guaranteed.

They're priced as low as \$18 and from that to \$35 and they're worth it.

LOOPING THE LOOP

Trolley—West End Improvement To Street Railway System Gives Public 9 Mile Round Trip Ride For 10 Cents.

The new West End loop of the Maysville Street Railroad and Transfer Company was completed Saturday morning and thrown open to service yesterday.

The work of constructing this loop has been under way since last fall and has been done by the company's force at a cost of approximately \$5,000. The loop has a radius of forty-six feet and is laid in some places on a fill of twenty feet. It is situated just west of the lighting plant.

To build the loop the track had to be extended 350 feet thus giving the car line of this city a length of four and one-half miles of continuous track. Not only has the company built this track and loop, but it has erected a concrete wall to protect the public street and has practically re-built West Second street for a length of 400 feet.

The Street Car Company should not only be congratulated on their new loop but should receive the thanks of every citizen for thus improving the public property.

CHURCH NOTES

Delivered Great Baccalaureate Sermon Last Evening Ushering in Maysville High School Commencement

Subject: "Individual, Personal Responsibility"—Eloquent, Logical and Versatile

The annual baccalaureate service held at the Central Presbyterian Church last night was one which will long be remembered. The auditorium, fresh and attractive from the recent renovation by skillful artists, the abundance of flowers with their uplifting beauty and the persuasive strains of sacred melody, all blended to emphasize the soul-stirring message of the speaker.

Gifted by God and under the inspiration of a close walk with Him, he spoke to the class who are now leaving the enforced routine of school and entering into the great possibilities of young manhood and young womanhood upon "Individual, Personal Responsibility." Soon losing sight of the speaker as he advanced in his earnestness they were lead by him into the upward paths where life is alone worth the living and where joy and beauty exist in the ideal because of this individual, personal responsibility.

The text chosen was from the 14th chapter of Romans, the twelfth verse and the following, a concise synopsis of the sermon:

The Bible is the only book which gives us an exalted conception of man's origin and destiny and his true place in the universe; a subject which is receiving unusual attention from educated classes today. The language of the text is God's answer to the question. It controverts any idea which tends to dwarf us intellectually, morally or spiritually. It makes us feel the infinite significance and grandeur of our individual life. It stresses personal responsibility which grounds itself in our moral freedom; our power of personal choice and decision. It keeps God before the mind as the essential source of power for our self-recovery from sin. It defines our individuality. It distinguishes us from things and brutes and masses and compounds and urges personal culture and development, forcing us to grow on our own roots. It shows the real meaning of individuality. No man liveth unto himself; he is related to God; he is related to his fellowmen. God makes nothing for a selfish existence. He graces no individual, enriches no personality for a selfish life. To do good and communicate, to minister and serve is the true glory of individualism in endowments, talents, culture, wealth and achievement.

Responsibility presses upon us out of eternity. It calls to our particular faculties, culture and possessions through all the avenue of the world. So the world is a waiting, a calling world. It looks to the boys and girls who carry in turn the oncoming manhood and womanhood and who must fill the places, stations and professions when vacated. The call is loud and earnest and seriously realistic; the responsibility is tremendous.

But the call comes through Christ who carried through the world the keenest sense of his personal responsibility; who met all the demands of life; who never cowered or cringed before any class of men or to obey obligations and who pledges the power of his grace to men and women.

Cultivate a big soul and give it to the world as the sun gives itself to all living things. Cultivate a rich personality and give the world the cheer and hope, brave deeds and a shining example of beauty. Give it a personality like unto Christ so that by coming in contact with you men may feel the kindling attractions to Christ the ascent of heaven.

The number of graduates is two-thirds, the largest graduating class in the history of the Maysville High School with the exception of the class of 1913 which had the same number. A program of the services was as follows:

MAGNIFICENT TWIRLING

Of Jimmy Raemes Enabled Maysville to Shut Out Charleston Yesterday by the Score of 2 to 0.

In one of the best games played on the local lot this season the Cubs shut out the Charleston Senators at League Park yesterday afternoon by the score of 2 to 0. Jimmy Raemes did the twirling for the locals and he had everything on the old pill and his control was almost perfect. He allowed only five hits and one base on balls.

Shipe, southpaw, started the game for the Senators, but he was replaced by Leake in the fourth inning, after two runs had been scored off his delivery in the two previous innings.

Emery started the ball rolling for Maysville in the second inning when he singled, was sacrificed to second by Chapman, and scored on Dieterich's safety through second. Ellis bounded to Keating and Dieterich was thrown out at second. Gohr singled and Raemes flied to Bittle.

The Cubs made their other run in the next inning. Biddle fanned for the second time. Chapman singled and stole second. Curtis flied to left. Emery singled to center scoring Chappy. Don, over fouled to Carmony.
